### **About the Concert and Venue:**

Mt. Lebanon United Lutheran Church is one of the churches on Washington Road that is celebrating its 100<sup>th</sup> year anniversary. This concert celebrates these anniversaries and the community of faith that shares God's love with all our neighbors. We welcome the choir from Southminster Presbyterian Church.

The concert will be held in Mt. Lebanon Lutheran's sanctuary which features excellent acoustics and a Fratelli Ruffatti Pipe Organ that was designed specifically for the worship space. Installed in 2002 it features three manuals and pedal, and consists of 36 pipe stops, 16 digital stops, 32 ranks and 1,816 pipes. The Ruffatti instrument is augmented by a 4 stop Antiphonal Division built and installed by J. Zamberlan and Company in 2009. It boasts a beautiful Trompette Enchamade as well as 8, 4, and 2 Principals.
